

KPCC decided highest number of claims

The 8th Session of the Kosovo Property Claims Commission (25-29th August 2008), has reached a record number of decided claims, attaining a number of 2,946. This figure raises the number of decided claims to 14,088 out of the total number of 39,803 property claims submitted to the Kosovo Property Agency (KPA) so far. This high number of cases, which were adjudicated during one session only, shows an increased dynamics of KPA's work in resolving –professionally and within an optimal time frame- all remaining claims for private immovable property arising from the armed conflict during the period 1998-1999.

As usual, during the work at KPA, there is an overall mobilization and commitment in fulfilling the Agency's mandate. It is expected that KPCC, which was established

in June 2007, will complete its work in adjudicating all property claims submitted to KPA at the beginning of 2010. The next KPCC session will be held next month.

In the table below you can find the figures related to the resolved claims for each KPCC session, from the very beginning until now.

Kosovo Property Agency

The KPA was established on 4 March 2006 by UNMIK Regulation 2006/10 which was later superseded by UNMIK Regulation 2006/50. The KPA has, subject to appeal to the supreme court of Kosovo, exclusive jurisdiction resolve claims for private imovable property arising from the 1998-1999 armed conflict.

There is no lack of results

Only one last edition before completing the publication of all claims submitted to KPA, we can not feel but proud to present the record figure of adjudicated claims in the last session of Kosovo Property Claims Commission with a total number of 2,920 claims, thereby reaching a total number of 14,088 resolved claims to date.

This outcome has been achieved as a result of the engagement and continuous commitment of the KPA staff, as well as KPCC's professionalism in taking decisions based on applicable laws in order to guarantee and enable rights over private immovable property for all Kosovo citizens without any distinction.

Last successes of KPA are not only identified by the number of cases adjudicated by the KPCC, but also by an increase in the rhythm of the notification process throughout Kosovo territory as well. There is tens of notification teams involved in the field every day delivering hundreds of notifications. This process is coming to an end, and Notification Teams can be proud of their work which fulfills an important duty in the procedure of processing and adjudicating each claim. More than 36,700 properties have been identified so far.

There are only a few claims left to be published in the next KPA gazette, and a number of properties are yet to be notified, but there is still big number of claims left for which the Commission should take a decision within an optimal deadline. This is going to be the next challenge, which we believe KPA will handle successfully.
